Guest Presenter

The guest presenter for the evening was Dr. Merjjena B. Hemp. Dr. Hemp holds B.A. and M.A. degrees in Communication Studies and a Ph.D. in Curriculum & Instruction from New Mexico State University. She published her first book *Beyond the Shadow of 3000 Pairs of Shoes: A Story of Hopelessness, Persistence, and Survival* in 2014. The book describes her experiences growing up during martial law in the Philippines under the Marcos regime and her life in the United States.

Dr. Hemp spoke to the membership about the importance of communication, particularly for elected officials in local communities. She also encouraged everyone to take a moment to be present and “just breathe” as our lives have become so busy.

Currently, Dr. Hemp is working on a project in which she engages communities in hard conversations about how our lives have significantly changed after 9/11, as well as pressing issues the world is facing today. Having married a U.S. serviceman, Dr. Hemp has a strong appreciation for veterans, advocating for them by participating in *Jump for the Vets*. It is her hope to bring attention to the sacrifices and service of veterans and the fact that many of them are struggling. She shared video of some of her skydiving experiences with the group.

Dr. Hemp offered a unique perspective concerning being able to live in the United States. She shared the view that this country offers great opportunities for individuals to achieve success and realize their dreams and that not everyone in this world is so fortunate. Dr. Hemp brought several individuals with her to assist in the presentation including Briana & Naomi Davis who shared their musical talent with the group.
